

Gorny (Mateusz Gorny) is Goral's new project presenting mainly electronic music in techhouse and techno climates. The artist started his adventure with music in these genres. After 20 years, he decided to return to the roots.

After a year of work on the project, Gorny has released a single under the name "432 love". Mateusz has already had the opportunity to perform at festivals such as Audioriver (Plock) or Intro (Raciborz). His live act also reached a viewing record on the "Warsaw Boulevard" streaming channel.

On the scene, Gorny is expressed through a computer, midi controllers, synthesizers and a drum machine creating original live which is warmly accepted by the audience.
