

MY 2ND WIFE

MY 2ND WIFE is a brand-new project started by Akme and Piotr Bejnar. These talented Gentlemen met accidentally, in the car, heading to Berlin for a gig. After a great event, which heavily banged the land at the Spree River, they realized that their approach, plans and demands for music were similar. They declared that their new undertaking had to become reality.

Extensive DJ experience, increasing amounts of domestic and overseas bookings and fast evolving portfolios by both producers (e.g. Mo's Ferry Productions, Resopal Schallware, Numbolic Records, Night Drive Music, Recovery Tech, Sensefloor, etc.) have hailed MY 2ND WIFE “probably the hottest collaboration on techno scene” by muno.pl. The unique style of MY 2ND WIFE is the result of solid minimal, hard tech-house and techno with strongly accented shaman fascinations. The main goal is delving into the human soul, knowing the line of consciousness and reaching the nirvana state of mind, which is so hard to get for people in the West.

The extended, exclusive version of the project is MY 2ND WIFE's AUDIOVISUAL LIVE (premiere at Auditoriver Festival 2014) which was created with Michał Mierzwa – VJ, graphic and motion designer who lives and works in Poznań. Michał since 2005 has created commercial and authorial products in field of branding, typography, animation and motion graphics. He specialises in VJ's live-acts in Polish and global clubs and art galleries.
